09.2019 - Present Doctor of Philosophy Beihang University with an Honors degree

Advisor

Professor Mai Xu

Major

Communication and Information Systems

09.2015 - 07.2019

Beihang University with an Honors degree

Bachelor of Engineering

Major | Communication and Information Systems

Publications

IEEE/CVF CVPR

2024

Enhancing Quality of Compressed Images by Mitigating Enhancement Bias Towards Compression Domain

Q. Xing, M. Xu, S. Li, X. Deng, M. Zheng, H. Liu, Y. Chen

Identified and mitigated enhancement bias, thereby improving the quality of enhanced compressed images.

IEEE TPAMI 2023

DAQE: Enhancing the Quality of Compressed Images by Exploiting the Inherent Characteristic of Defocus

Q. Xing, M. Xu, X. Deng, Y. Guo

Proposed an intra-image divide-and-conquer enhancement strategy based on defocus, which indicates region-wise compression quality.

IEEE/CVF CVPRW

2022

Progressive Training of a Two-stage Framework for Video Restoration

Q. Xing*, M. Zheng*, M. Qiao*, M. Xu, L. Jiang, H. Liu, Y. Chen

NTIRE winning solution: Integrated a series of contributions on dataset construction, inference architecture design, and training strategy optimization.

ECCV 2020

Early Exit or Not: Resource-efficient Blind Quality Enhancement for Compressed Images

Q. Xing, M. Xu, T. Li, Z. Guan

Proposed a multi-level early-exit enhancement strategy based on real-time quality assessment for the blind quality enhancement challenge.

IEEE TPAMI 2019

MFQE 2.0: A New Approach for Multi-frame Quality Enhancement on Compressed Video

Q. Xing, Z. Guan, M. Xu, R. Yang, T. Liu, Z. Wang

Enhanced low-quality frames using key frames in hierarchical encoding, effectively improving compressed video quality and mitigating quality fluctuations.

Work Experience

12.2021 - 12.2023	Alibaba	Tao Technology
-------------------	---------	----------------

Research Intern

Acted as the main contributor in the NTIRE CVPR 2022 Video Quality Enhancement Challenge, responsible for dataset construction, inference architecture design, and training strategy optimization. The proposed solution won the competition, competing against teams from ETH, CUHK's XPixel lab, Tencent's GY-Lab, and others.

07.2021 - 09.2021

Tencent Rhino-bird Open-source Training Program

Research Intern

Selected as one of the 127 participants out of more than 1800 candidates; replicated recent work based on the high-performance graph computing platform Angel.

12.2018 - 12.2019

Research Intern

Huawei 2012 Lab

Served as the main contributor for multi-frame decoding quality optimization on Huawei's proprietary encoder HW.265; achieved over a 10% BD-BR gain on a real

business dataset covering a large volume of UGC and live game streaming videos.

Honors and Awards

2023	China National Scholarship	

Highest national award available to graduate students.

2023 Beihang Academic Excellence Foundation for Ph.D. Candidates

Ranked 1st/96 in the college.

2022 Glarun Scholarship by the 14TH Research Institute, CETC

Among four awardees from 96 college students.

2022 Winner of the CVPR NTIRE challenge on Super-Resolution and

Quality Enhancement of Compressed Video

Ranked 1st/8 in the final.

2019 | Beihang Excellent Graduate

Top 20% in the university.

2015/18/21/22 Beihang Outstanding/Merit Student

Top 5% in the university.

2014 | Shenzhen Merit Student

Sole awardee in the school.
